- 55 1796. Liberty Cap. Quite fine and of a clean brown color. Very difficult to get nice.

1851. BALDWIN & CO. TEN DOLLARS.

- 239 1851. Baldwin & Co. Ten Dollars. Liberty head to left with "Baldwin & Co." on coronet; reverse, eagle, "S. M. V. CALIFORNIA GOLD TEN D." Die broken at fourth star on left. Four small dot nicks in field under hair as though from another coin falling on it, and very faint scratches on chin and across W, but otherwise nearly clear from the usual nicks and scratches on so many of the pioneer coins. The long curl in center of obverse and the shield and some feathers in center of reverse are weak, but it seems to be from weakness of the die in striking rather than wear. Altogether a fine specimen of this rare coin and the equal of, or better than, the few others known. The last sold, July 2, 1902, brought \$300 and was described as "not far from fine." With the advance in value of the pioneer coinage since then, this should bring considerable more.
